SUMMARY

Frontend Developer with 1.5+ years of experience building and optimizing React.js and Next.js applications. Focus on performance optimization, SEO practices, and UI architecture. Experienced in developing reusable components, implementing server-side rendering, improving Core Web Vitals, and delivering responsive, accessible user interfaces that enhance engagement and outcomes.

SKILLS

Technical Skills: React.js, Next.js, Redux, TypeScript, JavaScript (ES6+), Tailwind CSS, HTML, CSS, REST APIs.

Tools: Postman, Git, Chrome DevTools, Webpack, Framer Motion.

Practices: SEO, Responsive Web Design, Agile/Scrum, Problem Solving, Context API, SSR, CSR.

Soft Skills: Communication Skills, Teamwork, Time Management, Problem Solving.

WORK EXPERIENCE

SDE Intern (Frontend) - Swift

Bangalore, India

Feb 2026 – Apr 2026

- **Designed and implemented an internal NDR (Non-Delivery Report) calling interface** supporting single and bulk operations, **improving task efficiency by 25%** through workflow consolidation and reduced UI transitions.
- **Refactored onboarding flows into modular, reusable components, decreasing code duplication by 40%** and enhancing long-term maintainability.
- **Diagnosed and resolved UI and API integration issues across OMS modules, reducing recurring production bugs by 20–25%** and improving overall system stability.

Frontend Developer - Raze

Bangalore, India

May 2025 – Nov 2025

- **Developed a high-performance Next.js e-commerce platform with server-side rendering, image optimization, and caching, reducing page load times by 30%.**
- **Integrated Strapi Headless CMS** to enable content teams to publish and **manage product data 50% faster** without engineering support.
- **Crafted scalable UI components** with React.js, Tailwind CSS, and reusable layouts, **streamlining development efficiency by 35%.**
- **Led SEO across 3 websites** using structured data, sitemap generation, meta-tag automation, etc., **achieving 95+ technical SEO scores (Ahrefs audits) and 20% organic traffic growth.**

Frontend Developer - Freelance

Remote, India

Sept 2024 – Apr 2025

- **Delivered 10+ responsive React.js applications** that **improved user engagement by 35%** and **session duration by 20%** through refined UI/UX design.
- **Built reusable components** using Tailwind CSS, **cutting development time by 40%** and maintaining design consistency across screen sizes.
- **Performed SEO audits** using Ahrefs and Google PageSpeed Insights, **enhancing visibility by 30%** and **boosting overall scores by 25%.**
- **Ensured cross-browser and mobile compatibility** through responsive design optimizations, **resulting in a 20% increase in mobile user traffic.**

PROJECTS

SaaS Platform: <https://saas-website-phi.vercel.app>

Built a modern SaaS platform using Next.js 14 and TypeScript with server-side rendering for improved performance and SEO. Designed adaptive layouts with Tailwind CSS, implemented smooth scrolling interactions, and added scroll-based animations to enhance user engagement.

Task Manager App: <https://react-task-manager-lake.vercel.app/>

Developed an interactive task management application using React.js Hooks with complete CRUD functionality via RESTful APIs. Integrated Firebase for real-time data handling and implemented asynchronous logic using Fetch API and async/await.

Movie Details App: <https://movie-details-flame.vercel.app>

Built a responsive movie search application in React.js that fetches data from an open source REST API. Implemented instant search, dynamic rendering, and a clean UI for seamless navigation.

EDUCATION

Bachelor of Arts (Computer Applications)

Devi Ahilya Vishwavidyalaya (DAVV), Indore, India

Sep 2021 – Oct 2024

(CGPA: 7.7/10)
