SUMMARY

Frontend Developer with 2+ years of experience building and optimizing high-performance React.js and Next.js applications. Proven expertise in server-side rendering, Core Web Vitals optimization, SEO implementation, and scalable UI architecture. Consistent track record of delivering measurable outcomes — 30% faster load times, 35% gains in development efficiency, and 20% organic traffic growth across multiple production projects. Strong communicator with experience collaborating across design, product, and content teams in Agile environments.

SKILLS

Core:	React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, Context API, HTML5, CSS3, Tailwind CSS, REST APIs.
Performance & SEO:	SSR, CSR, Core Web Vitals, Image Optimization, Caching, Lazy Loading, Sitemap Generation, Structured Data, Meta-tag Automation.
Tools & Practices:	Git, Webpack, Postman, Chrome DevTools, Framer Motion, Ahrefs, Google PageSpeed Insights, Agile/Scrum, Responsive Web Design, Cross-browser Compatibility.

WORK EXPERIENCE

SDE Intern (Frontend) – Swift Bangalore, India Feb 2026 – Apr 2026

- Designed and implemented an internal NDR (Non-Delivery Report) calling interface supporting single and bulk operations, improving task efficiency by ~25% through workflow consolidation and reduced UI transitions.
- Refactored onboarding flows into modular, reusable components, decreasing code duplication by ~40% and enhancing long-term maintainability across the codebase.
- Diagnosed and resolved UI and API integration bugs across OMS modules, reducing recurring production issues by ~20–25% and improving overall system stability.

Frontend Developer – Raze Bangalore, India May 2025 – Nov 2025

- Architected and developed a high-performance Next.js e-commerce platform with server-side rendering, image optimization, and caching strategies, reducing page load times by 30%.
- Built a scalable component library using React.js and Tailwind CSS with reusable layouts and design tokens, streamlining development efficiency by 35%.
- Led technical SEO implementation across 3 websites — structured data, automated meta-tags, sitemap generation — achieving 95+ Ahrefs scores and 20% organic traffic growth.
- Integrated Strapi Headless CMS, enabling non-technical content teams to publish and manage product data 50% faster without engineering dependency.

Frontend Developer – Freelance Remote, India Sept 2024 – Apr 2025

- Delivered 10+ responsive React.js applications with refined UI/UX, improving user engagement by 35% and session duration by 20%.
- Built reusable Tailwind CSS component systems, cutting development time by 40% and maintaining pixel-perfect design consistency across screen sizes.
- Conducted SEO and performance audits using Ahrefs and Google PageSpeed Insights, boosting client search visibility by 30% and overall scores by 25%.
- Implemented responsive and cross-browser optimizations, driving a 20% increase in mobile user traffic across delivered projects.

PROJECTS

SaaS Website [Live Link](#)

Built a modern SaaS marketing platform using Next.js 14 and TypeScript with SSR for improved performance and SEO. Designed adaptive layouts with Tailwind CSS, implemented smooth scrolling interactions, and integrated scroll-based animations using Framer Motion to enhance user engagement and conversion flow.

Task Manager App [Live Link](#)

Developed a full-featured task management application using React.js Hooks with complete CRUD functionality via RESTful APIs. Integrated Firebase for real-time data synchronization and implemented async data handling with Fetch API and async/await patterns.

Movie Details App [Live Link](#)

Built a responsive movie search application in React.js consuming an open-source REST API. Implemented instant search with debouncing, dynamic rendering, and a clean, accessible UI for seamless navigation across devices.

EDUCATION

Bachelor in Computer Applications Devi Ahilya Vishwavidyalaya (DAVV), Indore, India	Sep 2021 – Oct 2024 (CGPA: 7.7/10)
